### FOOTNOTES

(1) Organic Revenue for the three and six months ended June 30, 2022 used to calculate Organic Revenue Growth for the three and six months ended June 30, 2023 was \$232.3 million and \$475.1 million, respectively, which is adjusted to reflect revenues from Partnerships that have reached the twelve-month owned mark during the three and six months ended June 30, 2023. Organic Revenue and Organic Revenue Growth are non-GAAP measures. Reconciliation of Organic Revenue and Organic

Revenue Growth to commissions and fees, the most directly comparable GAAP financial measure, is set forth in the reconciliation table accompanying this release.

(2) Adjusted Net Income and Adjusted Diluted EPS are non-GAAP measures. Reconciliation of Adjusted Net Income to net income (loss) attributable to BRP Group and reconciliation of Adjusted Diluted EPS to diluted earnings (loss) per share, the most directly comparable GAAP financial measures, is set forth in the reconciliation table accompanying this release.

(3) Adjusted EBITDA and Adjusted EBITDA Margin are non-GAAP measures. Reconciliation of Adjusted EBITDA and Adjusted EBITDA Margin to net income (loss), the most directly comparable GAAP financial measure, is set forth in the reconciliation table accompanying this release.

## NOTE REGARDING FORWARD-LOOKING STATEMENTS

This press release may contain various “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, which represent BRP Group’s expectations or beliefs concerning future events. Forward-looking statements are statements other than historical facts and may include statements that address future operating, financial or business performance or BRP Group’s strategies or expectations. In some cases, you can identify these statements by forward-looking words such as “may,” “might,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “projects,” “potential,” “outlook” or “continue,” or the negative of these terms or other comparable terminology. Forward-looking statements are based on management’s current expectations and beliefs and involve significant risks and uncertainties that could cause actual results, developments and business decisions to differ materially from those contemplated by these statements.

Factors that could cause actual results or performance to differ from the expectations expressed or implied in such forward-looking statements include, but are not limited to, those described under the caption “Risk Factors” in BRP Group’s Annual Report on Form 10-K for the year ended December 31, 2022, and in BRP Group’s other filings with the SEC, which are available free of charge on the SEC’s website at: [www.sec.gov](http://www.sec.gov). Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated. All forward-looking statements and all subsequent written and oral forward-looking statements attributable to BRP Group or to persons acting on behalf of BRP Group are expressly qualified in their entirety by reference to these risks and uncertainties. You should not place undue reliance on forward-looking statements. Forward-looking statements speak only as of the date they are made, and BRP Group does not undertake any obligation to update them in light of new information, future developments or otherwise, except as may be required under applicable law.

**NON-GAAP FINANCIAL MEASURES**

Adjusted EBITDA, Adjusted EBITDA Margin, Organic Revenue, Organic Revenue Growth, Adjusted Net Income, Adjusted Diluted Earnings Per Share ("EPS") and adjusted net cash provided by operating activities ("free cash flow") are not measures of financial performance under GAAP and should not be considered substitutes for GAAP measures, including commissions and fees (for Organic Revenue and Organic Revenue Growth), net income (loss) (for Adjusted EBITDA and Adjusted EBITDA Margin), net income (loss) attributable to BRP Group (for Adjusted Net Income), diluted earnings (loss) per share (for Adjusted Diluted EPS) or net cash provided by (used in) operating activities (for free cash flow), which we consider to be the most directly comparable GAAP measures. These non-GAAP financial measures have limitations as analytical tools, and when assessing our operating

performance, you should not consider these non-GAAP financial measures in isolation or as substitutes for commissions and fees, net income (loss), net income (loss) attributable to BRP Group, diluted earnings (loss) per share, net cash provided by (used in) operating activities or other consolidated income statement data prepared in accordance with GAAP. Other companies in our industry may define or calculate these non-GAAP financial measures differently than we do, and accordingly, these measures may not be comparable to similarly titled measures used by other companies.

We define Adjusted EBITDA as net income (loss) before interest, taxes, depreciation, amortization, change in fair value of contingent consideration and certain items of income and expense, including share-based compensation expense, transaction-related Partnership and integration expenses, severance, and certain non-recurring items, including those related to raising capital. We believe that Adjusted EBITDA is an appropriate measure of operating performance because it eliminates the impact of income and expenses that do not relate to business performance, and that the presentation of this measure enhances an investor's understanding of our financial performance.

Adjusted EBITDA Margin is Adjusted EBITDA divided by commissions and fees. Adjusted EBITDA Margin is a key metric used by management and our board of directors to assess our financial performance. We believe that Adjusted EBITDA Margin is an appropriate measure of operating performance because it eliminates the impact of income and expenses that do not relate to business performance, and that the presentation of this measure enhances an investor's understanding of our financial performance. We believe that Adjusted EBITDA Margin is helpful in measuring profitability of operations on a consolidated level.

Adjusted EBITDA and Adjusted EBITDA Margin have important limitations as analytical tools. For example, Adjusted EBITDA and Adjusted EBITDA Margin:

- do not reflect any cash capital expenditure requirements for the assets being depreciated and amortized that may have to be replaced in the future;
- do not reflect changes in, or cash requirements for, our working capital needs;
- do not reflect the impact of certain cash charges resulting from matters we consider not to be indicative of our ongoing operations;
- do not reflect the interest expense or the cash requirements necessary to service interest or principal payments on our debt;
- do not reflect share-based compensation expense and other non-cash charges; and
- exclude certain tax payments that may represent a reduction in cash available to us.

We calculate Organic Revenue based on commissions and fees for the relevant period by excluding investment income and the first twelve months of commissions and fees generated from new Partners. Organic Revenue Growth is the change in Organic Revenue period-to-period, with prior period results adjusted to include commissions and fees that were excluded in the prior period because the relevant Partners had not yet reached the twelve-month owned mark, but which have reached the twelve-month owned mark in the current period. For example, revenues from a Partner acquired on June 1, 2022 are excluded from Organic Revenue for 2022. However, after June 1, 2023, results from June 1, 2022 to December 31, 2022 for such Partners are compared to results from June 1, 2023 to December 31, 2023 for purposes of calculating Organic Revenue Growth in 2023. Organic Revenue Growth is a key metric used by management and our board of directors to assess our financial performance. We believe that Organic Revenue and Organic Revenue Growth are appropriate measures of operating performance as they allow investors to measure, analyze and compare growth in a meaningful and consistent manner.

We define Adjusted Net Income as net income (loss) attributable to BRP Group adjusted for depreciation, amortization, change in fair value of contingent consideration and certain items of income and expense, including share-based compensation expense, transaction-related Partnership and integration expenses, severance, and certain non-recurring costs that, in the opinion of management, significantly affect the period-over-period assessment of operating results, and the related tax effect of those adjustments. We believe that Adjusted Net Income is an appropriate measure of operating performance because it eliminates the impact of expenses that do not relate to business performance.

Adjusted Diluted EPS measures our per share earnings excluding certain expenses as discussed above and assuming all shares of Class B common stock were exchanged for Class A common stock. Adjusted Diluted EPS is calculated as Adjusted Net Income divided by adjusted diluted weighted-average shares outstanding. We believe Adjusted Diluted EPS is useful to investors because it enables them to better evaluate per share operating performance across reporting periods.

We calculate free cash flow because we hold fiduciary cash designated for our Insurance Company Partners on behalf of our Clients and incur substantial earnout liabilities in conjunction with our Partnership strategy. Free cash flow is calculated as net cash provided by (used in) operating activities excluding the impact of: (i) the change in premiums, commissions and fees receivable, net; (ii) the change in accounts payable, accrued expenses and other current liabilities; and (iii) the payment of contingent earnout consideration in excess of purchase price accrual. We believe that free cash flow is an important financial measure for use in evaluating financial performance because it measures our ability to generate additional cash from our business operations.

Reconciliation of guidance regarding Adjusted EBITDA Margin, Organic Revenue Growth and Adjusted Diluted EPS to the most directly comparable GAAP measures is not available without unreasonable efforts on a forward-looking basis due to the high variability, complexity, and low visibility with respect to commissions and fees, net income (loss), diluted earnings (loss) per share or other consolidated income statement data prepared in accordance with GAAP. The Company is currently unable to predict with a reasonable degree of certainty the type and extent of items that would be expected to impact these GAAP financial measures

for these periods. The unavailable information could have a significant impact on the non-GAAP measures.
